

## TB021521 – Updated Residential Water Heater Isolation Valve

Noritz America has released a new version of the residential isolation water valves to replace the existing valve (*IK-WV-200-1*). All existing and new valve kits will work with the entirety of the Noritz residential product line. However, the new model isolator valve (*IK-WV-200-3*) will offer customers a valve design with:

- A more compact design**
- Easier to operate handle**
- Adjustable Valve position (left or right mounted handle)**
